## VOLATILE VICKERINESS

**APRIL 19 2004**

Featuring Perth Reeds and Electronics champ Lindsay Vickery in a variety night of recent solo, group and improv projects:

**Solo:** GRABIT! Wrestle with Jacob ter Veldhuis' funky remix of Death-Row prisoners' conversations - GRABIT!, an Afro-Cuban Missile-Crisis-agogo from Rob Davidson, a race-call hoedown, some sonic voodoo revenge and more.

**GRIT:** Exit Points The first Perth performance of the new ensemble GRIT playing a program of Vickery's recent chamber music including a number of Australian premieres.

**HEDKIKR:** The Led Zeppelin Songbook A loud and mean reworking of heavy metal by the heavy improv duo Darren Moore and Lindsay Vickery. Thrill to the glitchy Communication Breakdown, marvel at at the majestic No Quarter and be annoyed by the juggernaut Immigrant's Song - as you've never heard them before.
