DEPARTMENT OF MUSIC

MUSIC STUDENTS' LUNCHTIME RECITAL

Callaway Music Auditorium 1.10 p.m. Tuesday, 22 July 1986
and G.5

Today's recital is presented by composition students from the
Department of Music

1. Space Music and Ornamentations Peter Hadley

PETER HADLEY (piano)

Space Music is a sectional theme and variations. The theme was generated by chance using a pack of cards. Aces were removed, and the remaining card values designated which space was to be sounded (2 = F space bass clef, 3 = A space, etc) and the suit designating duration (C = ♩, D = ♪, H = ♩, S = ♪). By pulling cards at random a theme was generated. This theme then underwent three "ornamental" processes, generating the variations; Mordent, Trill and Echo.

This was a simple way of combining the differing tendencies of order and randomness (conscious and sub-conscious). The piece expresses the idea of "balance of opposites".
