### 2011 NEW MUSIC MINI SERIES

The series features five exciting concerts showcasing the rich diversity of the new music scene.

**Mike Majkowski** *Distillations* (solo double bass): I have always been interested in the idea of playing solo. In 2008, I began an autodidactic study of my solo performance, and as I am interested in exploring how the use of self-devised extended techniques could develop the sound and style of a work. This led me to consider how these technical possibilities create dialogues between each other and within one another, and how the physical technique of sound production can shape a piece of music. Within this concert my intention is to present the aspects of duration, sound and pulse via sustaining and distilling specific self-devised extended techniques. Hence the title: *Distillations*.

**Decibel** are a new music ensemble from Western Australia. Their focus is on music that combines acoustic and electronic instruments. Artistic Director, Cat Hope leads an eclectic group of composers, performers and programmers that innovate score formats and ways of performing new music.

**Decibel are:** Cat Hope (artistic director, flute and electronics), Lindsay Vickery (reeds, programming and electronics), Stuart James (piano, percussion, programming and electronics), Malcolm Riddoch (guitar, networking and electronics), Tristen Parr (cello), Aaron Wyatt (violin, viola).
